The Facility has six policy pillars

How does the Recovery and Resilience Facility work?

* as a rule

National Recovery & Resilience Plan – some key features

National Recovery & Resilience Plan

- **Coherent** package of **reforms & public investments**
- **Performance-based:**
 - SMART milestones & targets, clear timeline
 - Costs reasonable, plausible & commensurate
 - Disbursement linked to performance
- **National ownership key** = important role of stakeholders in preparation
- **Complementarity**
 - Consistency w/ other initiatives (e.g. National Energy and Climate Plan)
 - Complementarity of funding: “additionality principle”: no double EU funding of same cost
- **State aid compliance**
- **Audit & controls**

PART II: What about justice systems?

Reform priorities for justice systems

RRF and justice systems - CSRs:

- Starting point is the **2019 and 2020 CSRs**: a number of MSs have recommendations linked to effective justice systems.
- Some MSs have challenges linked to judicial systems mentioned in the European Semester Reports. Others, have them assessed under other processes.

RRF and justice systems – digital transition:

Digitalisation of public administration as flagship initiative – e.g.

digitalisation of judicial procedures.

- 20% target = EUR 134 billion

Support the **green transition**.

Support the **recovery**.

Thank you
